phone just  
got better

Current as of April 17, 2023. Available with compatible devices within Bell Mobility's network coverage areas. (1) Based on a third-party score (Global Wireless Solutions OneScore™) calculated using wireless network testing in Canada against other national wireless networks. See [bell.ca/network](http://bell.ca/network) for details. (2) 5G/5G+ access requires a compatible device and a compatible rate plan (even if a 5G/5G+ symbol appears on your device). Coverage is approximate, may vary and may not include indoor coverage; see [bell.ca/5G](http://bell.ca/5G). Speed, performance and whether a 5G/5G+ device uses the available 5G/5G+ network depend on various factors including: your rate plan, topography, environmental conditions, the current serving radio conditions at your location and whether the device is actively downloading or uploading data. Access is subject to Bell's management of network resources, using methods which include Internet traffic management practices. See [bell.ca/ITMP](http://bell.ca/ITMP).
